

Rapid access to vital Management Information

Insight | Better Business Decision Making By Design

Key benefit

A high-performance business analytics tool, Sage Accpac **Insight** helps you create and customise reports that withstand the toughest scrutiny.

Sage and Accord have joined forces to offer you the opportunity to benefit from Sage Accpac **Insight** for a single one off fixed price - The Insight Starter Pack exclusively from Accord.

What is Sage Accpac Insight?

Sage Accpac **Insight** helps you dramatically improve reporting performance, make more informed decisions, and respond rapidly to ever-changing business conditions.

Accessed from within Microsoft Excel and linked dynamically to your Sage Accpac ERP system it enables you to report on all your vital management data, such as:

- Financials
- Sales
- Customers
- Product
- Suppliers
- Projects
- Regional analysis

You do not need to be a developer to create meaningful reports using **Insight** - if you can use Microsoft Excel then you will be up and running using **Insight** with minimal effort.
