

DATASHEET

## Fixed Asset Software

*Streamline fixed asset management from acquisition to disposal*

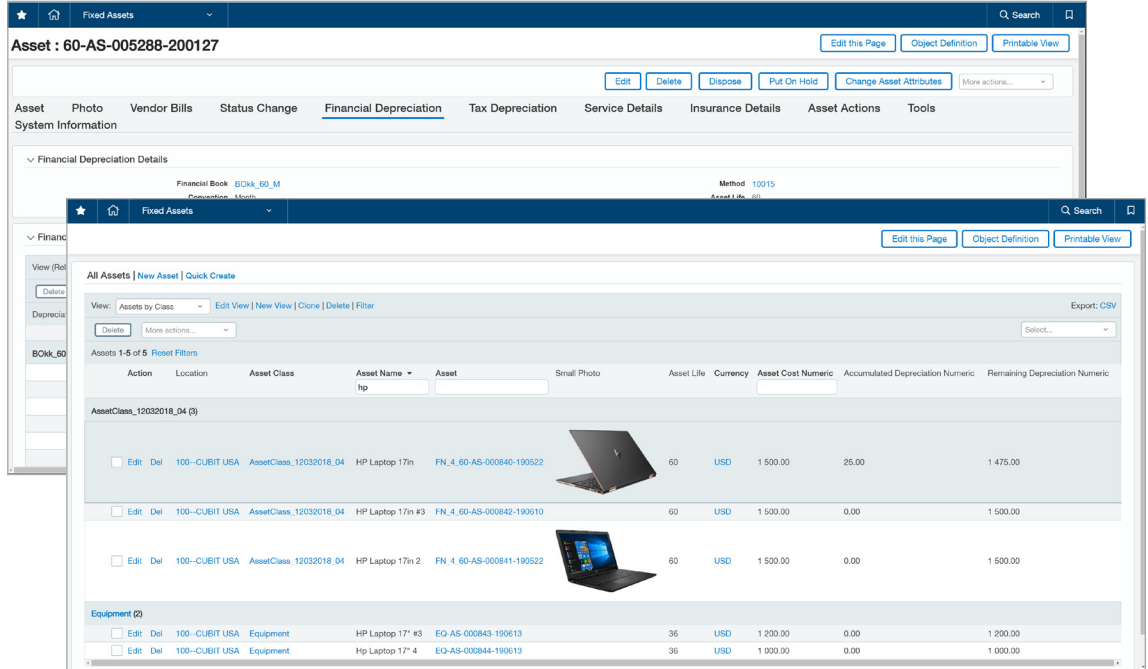

Organizations need simplified and accurate accounting throughout the fixed asset management life cycle. However, most companies have multiple sets of asset acquisition, depreciation, and disposal information. Sage Intacct Fixed Asset Software streamlines fixed asset management by automating the life cycle from acquisition to disposal, increasing control over your processes and data, and delivering rich, real-time insights to inform business decisions.

### **Spend up to 50% less time at year-end with automation from acquisition to disposal**

- **Accurately capture all assets.** Generate the asset master as they post to Sage Intacct's Purchasing or Accounts Payable solutions. Save time by creating multiple assets from a single AP bill.
- **Streamline depreciation and disposal.** Automate recurring journal entries and calculate financial and tax depreciation with predefined or user-configured depreciation methods. Delivered methods include straight-line, reducing balance, and MACRS. Shave hours off the disposal process and increase depreciation accuracy with partial and mass disposal of assets.
- **Visibility into your projects.** Easily group and track assets by project with out-of-the-box Construction in Progress functionality. View the status of each asset to understand what has been capitalized and what is in progress.

### **Increase control over your processes and data, reduce risk with complete audit trails**

- **Centralized asset management.** Manage and safeguard your central asset register, which includes multi-currency and multi-location, for depreciating and non-depreciating assets. Easily track and report on asset information including condition, warranty, dates serviced, and insurance status.
- **Complete audit-ability.** Reduce monthly close cycles by as much as 90% with clear audit trails, total control over your processes, and visibility into your assets.
- **Hassle free cost and useful life adjustments.** Eliminate reversals and rework when you change an asset's cost or useful life. Choose whether to automatically generate the remaining, or all schedules, for the change. Compare values before finalizing any changes and keep a complete audit trail to ensure accuracy and accountability.

View high-level information from the central asset register and then drill down for the details.

### Make informed decisions with rich, real-time insights

- **Roll forward reporting.** Quickly reconcile net book values at period end with beginning balances and get a single view of accumulated depreciation, additions, and disposals across your business.
- **Dimensional tagging.** Discover how asset costs are distributed by location, department, project, and more.
- **Asset linking.** Simplify the management of related assets and more easily identify dependencies. Efficiently track, process, and report on related assets.

Bay County Medical Care Facility (BCMCF) is a government owned and operated skilled nursing facility that used Sage Intacct to prepare its first ever facility-wide fixed asset inventory. [Learn how](#) they improved reporting accuracy by 70%, slashed their monthly close cycle by 90%, and were able to increase gross margin by 50%.
